

Use this card to help you connect with Nature while visiting Lamington National Park

Can you
find ...

Take photos and leave only footprints

A hollow
in a tree

A tiny
insect

Plants
growing on
a tree.

A plant with
different
coloured leaves

Look up. Why
do plants grow
high in the
trees?

What can you feel in
the rainforest.

Is the air in the
rainforest hotter or
colder? **I wonder why?**

Stop, stand quietly,
and listen. **What
sounds can you
hear?**

Can you find any interesting
patterns in nature?
Photograph them.

Have you noticed
some trees have
buttress roots and
others do **not**?
